

Indiana produces more NCAA basketball players than any other state

Of the data taken from the 2016 preseason AP top 25, Indiana produces almost seven top 25 team members per 100,000 people¹. The next highest state is Kansas with 4.27. Indiana is also the only state with four top 25 teams.

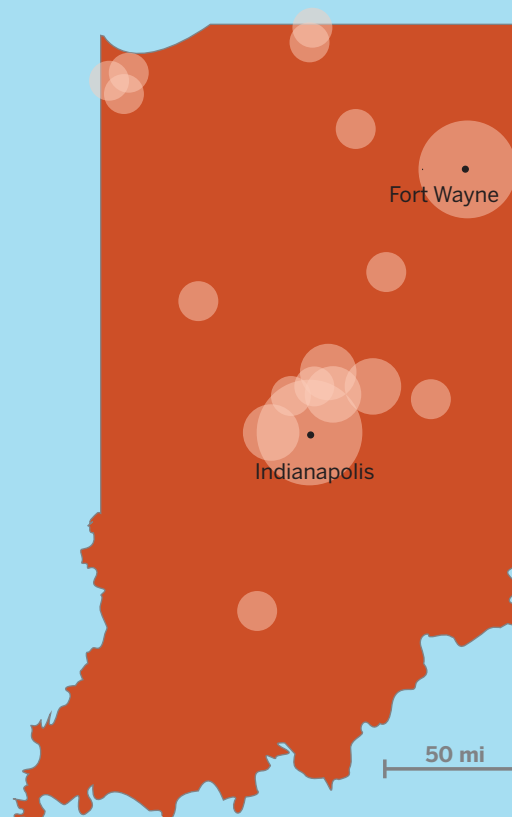

HOME SWEET HOME

The top 12 states that produce the most players on top 25 teams, unadjusted for population.

THE HOOSIER STATE

Each of the 33 players' hometowns are scattered all across the state.
