

Violent Trends in Transgender Community Misrepresented by Murder Statistics

Trends within the transgender community show higher risks of discrimination and constantly changing murder rates, but as a whole have low murder rates.

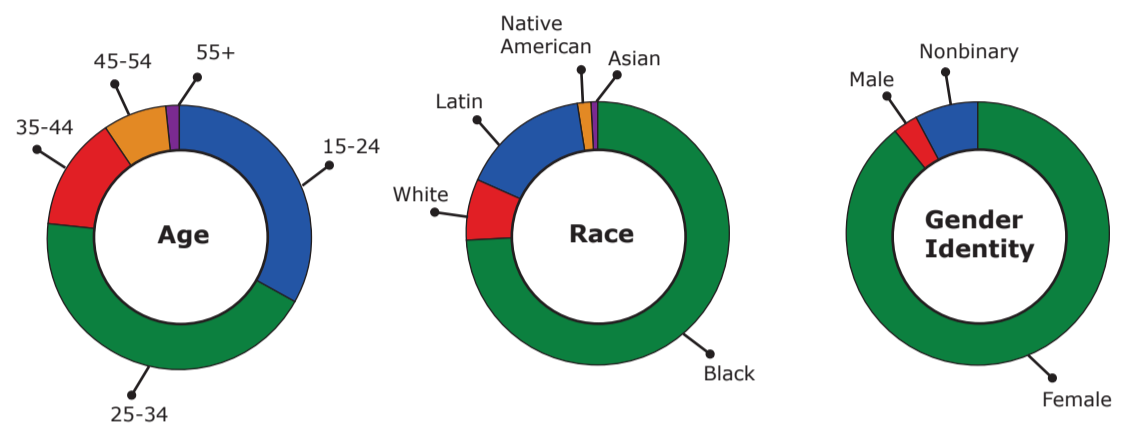

Percent Change in Murder Rate

Key: ■ Trans Murder Rate ■ US Murder Rate

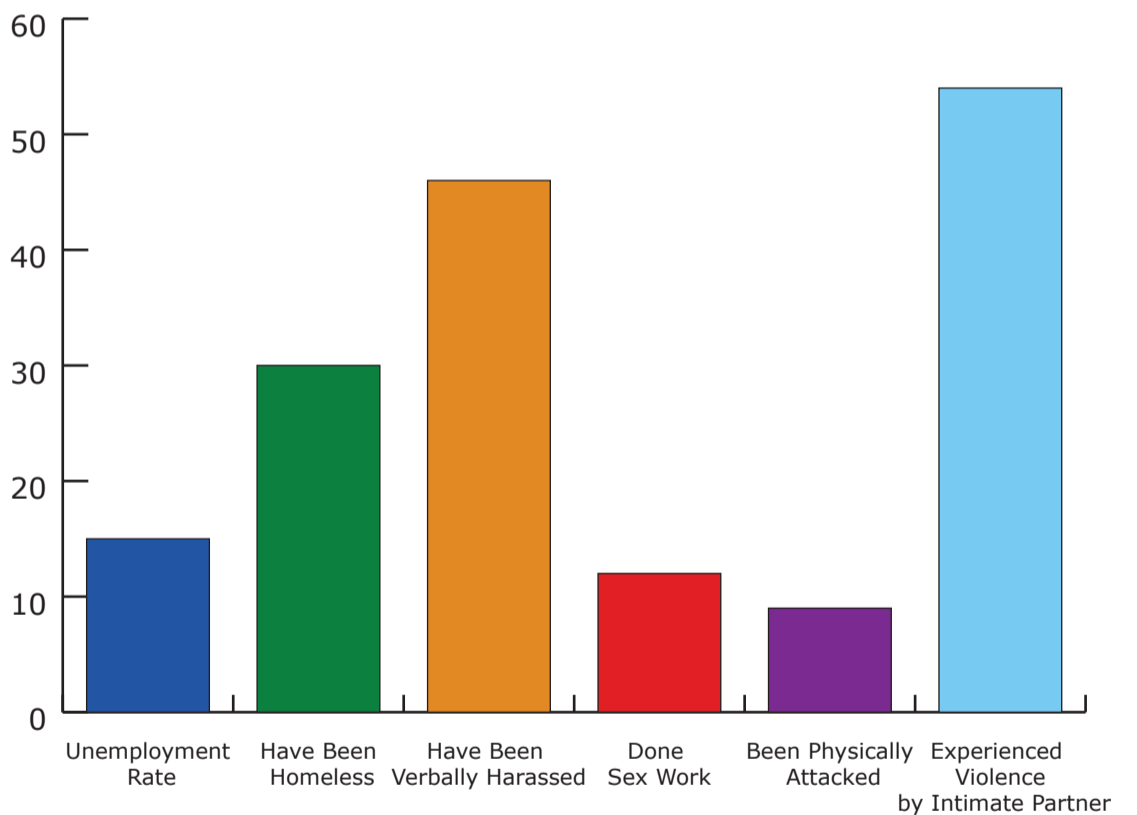

No comprehensive data collected for the murder of transgender people before 2010

Murders of Transpeople by Demographic

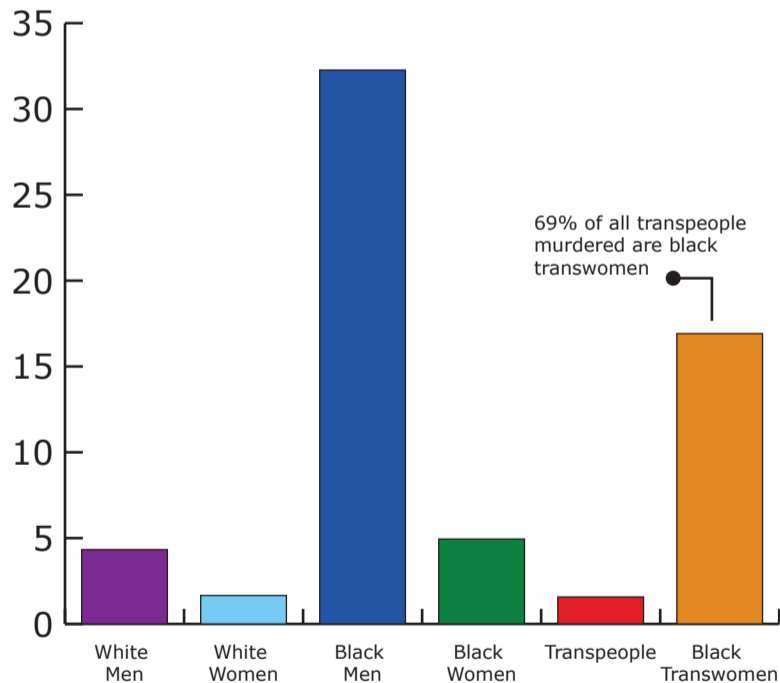

Discrimination Transpeople Face

Statistics over homelessness, violence by an intimate partner, and sex work were all recorded for the lifetime of a person while statistics over physical and verbal violence were recorded for the year of the survey

Murder Rates by Demographic

Murder rates were collected for the last complete year for each demographic. The murder rate for transpeople were figured from 2016 statistics while all others were calculated with statistics from 2014.
