

# Starbucks not so common in Bloomington

While college towns are stereotypically hotspots for the popular coffee chain, there are only 7 Starbucks stores in Bloomington for its approximately 84,500 residents. The per capita concentration of Starbucks stores in Bloomington of 0.08 per 1,000 people is below the national average of 0.3 and less than half that of the Indiana average of 2.2.

That Indiana average puts the Hoosier state at #17 on the list of United States' Starbucks concentrations, but that ranking must come from towns other than Bloomington.
